2024

INTERNATIONAL PROGRAM NUMBERS

16,359 CHILDREN'S FEEDING PARTICIPANTS

2,953 WOMEN & GIRLS EMPOWERED

1,196 AGRICULTURE PARTICIPANTS

57 PROGRAM CENTERS

COUNTRY OVERVIEW

Kenya is a country in contrast. The shining skyscrapers of central Nairobi rise over squalid slums. Kenya maintains one of Africa's most dynamic tech scenes, but many in Kenya's rural north have never seen a cellphone or a TV. The productive farms of the southern highlands are a world away from the northern desert and semi-arid lowlands. The vibrant middle class has become an economic force and driver of growth, but crippling poverty persists in every city and village. Through partners, Convoy of Hope has been establishing strategic feeding programs in Kenya since 2007. The same partnerships have given Convoy a highly efficient means of conducting emergency-based feeding programs during the frequent droughts and water crises that strike Kenya. Communities in the eastern and northern parts of the country are often hit hardest by these dry periods. In addition, Women's Empowerment and Agriculture programs have enabled Convoy to partner with families moving toward food security and long-term sustainability.

Country Fast Facts

58 million[1]
Population

36%[1]
Population under the age of 15

36th[2]
Ranking of countries most affected by natural disasters from 1993-2022

2.15 million[3]
People facing acute food insecurity

Your investment of $15,000 will ensure that 125 children are given a nutritious meal every school day.

Your investment of $25,000 will ensure that 25 women are empowered to start their own businesses.

Your investment of $35,000 will ensure that 1,400 girls are able to join an empowerment group, find community, and learn of their worth and value.

Your investment of $44,965 will ensure that 391 farmers are trained and equipped to provide food for their families and communities.
